

Advanced Kingdom Leadership Course

Module 4

Session One: Supernatural Leadership and the Miraculous

Overview

This session introduces Module 4, which focuses on the supernatural dimension of Kingdom leadership. Leaders must learn to integrate both the supernatural work of the Holy Spirit and the practical responsibilities of leadership.

1. Supernatural and Practical Leadership

Kingdom leadership requires a balance between the supernatural and the practical.

Effective leaders listen to heaven while also implementing practical strategies and structures.

2. Presence-Based Leadership

Supernatural leadership is rooted in the presence of God.

A presence-based leader learns to operate in close relationship with the Holy Spirit.

3. Transformation from the Inside Out

The promise of the New Covenant is inner transformation.

Through the Holy Spirit, God writes His laws on the hearts of believers and empowers them to walk in His ways.

4. The Power of the Holy Spirit

Jesus instructed His followers to wait for the power of the Holy Spirit before beginning their mission.

The outpouring of the Spirit empowers believers to influence the world.

5. Jesus as the Model of Leadership

Jesus modeled complete dependence on the Father and the Holy Spirit.

He declared that He only did what He saw the Father doing and only spoke what He heard the Father saying.

6. Leadership Through Intimacy with God

All leadership strategies and abilities are ineffective without intimacy with God.

True Kingdom leadership flows from relationship with the Father.

7. Influence Beyond Position

Influence does not depend solely on formal leadership roles.

A person who walks closely with God can influence an entire organization regardless of their position.

8. Cultivating the Supernatural Life

Leaders cultivate supernatural leadership through Scripture, prayer, and sensitivity to the Holy Spirit.

Spending time in God's Word renews the mind and aligns leaders with God's purposes.
